

Quick Reference Guide for Creating Simple HTML Files

Created by Filer Technical Support

These instructions have been written to help filers prepare and process files electronically. These instructions are provided only as general guidance and should not be relied upon as definitive or a substitute for the information provided in the [EDGAR Filer Manual](#).

Please follow these instructions:

1. Open your document in Notepad and format it as you would like it to be displayed.

A screenshot of a Notepad window titled "html pre tag example.txt - Notepad". The window shows the following HTML code with line numbers 1 through 10:

```
1 <html>
2 <head>
3 <title>html pre tag example</title>
4 </head>
5 <body>
6 <pre>
7
8
9 </pre>
10 </body>
11 </html>
```

2. Type the following tags around the formatted document just as they appear in the example below.
